

Smart plate can be used with Home Gateway for "CONNECTED SMART HOME" solutions. The EGO SMART plates integrate with the connected devices of the ChoruSmart system, they go beyond pure aesthetics and become an element of interaction with the user. The plates communicate with the other connected devices and, using RGB perimeter LED strips and a graphic display, can communicate operating statuses and any alarms detected by the smart functions that control the home to the user. The traditional EGO SMART and EGO plates can be used in the same system as they are designed to blend in perfectly.

Culoare	Natural satin beige	Descriere	4 modul
Pentru montaj suport	GW16804N	Sursă de alimentare	Via one of the suitable connected devices installed within it or via dedicated power supply unit GWA1700
Standard	2014/35/EU, 2014/30/EU, 2011/65/EU + 2015/863, EN 62368-1, EN 55032, EN 55035, EN IEC 63000	Temperatură de funcționare	-5 +45 °C
Relative humidity (non-condensative)	Max 93%	Clasă de protecție IP	IP20
Funcții	System information/status with messages on the display and notifications by RGB LED strips.	Material	Painted technopolymer
Finisare	Finisaj mat	Glow test conductori	650 °C
Termo-presiune cu bilă	70 °C	Familie	EGO SMART
User interface	The plate is equipped with a dot-matrix display and RGB LED strips
